

*HCC Representations to The Greater Cambridge Partnership on behalf of HCC services
First Proposals Consultation*

**REPRESENTATIONS OF HERTFORDSHIRE COUNTY COUNCIL (HCC)
GROWTH & INFRASTRUCTURE UNIT**

ON BEHALF OF HCC (excluding HCC Property)

IN RELATION TO THE

GREATER CAMBRIDGE PARTNERSHIP FIRST PROPOSALS CONSULTATION

DECEMBER 2021

1. Introduction

This representation is made by Hertfordshire County Council (HCC) Growth & Infrastructure Unit, in relation to the Greater Cambridge Partnership (GCP) Local Plan First Proposals Consultation. The comments within this representation reflect the interests of the following services that are provided by HCC, along with other relevant areas within the Environment & Infrastructure Department (excluding HCC Property):

- Highways & Transport (HCC as Highways Authority and Network & Travel Planning)

2. Highways and Transport

HCC would be keen to ensure the sites of 'Land to the West of Cambridge Road' and 'The Moor Lane, Melbourn' are fully integrated into the proposed Melbourn Greenway and A505 Walking and Cycling bridge, to facilitate an active travel link between these sites, Cambridge to the north and Royston to the south. HCC would want to support the proposed bus network improvements suggested, to better facilitate cross border routes and trips. HCC are pleased that work on these improvements seems to be ongoing, and we are committed to working with the Greater Cambridge Partnership to deliver these important sustainable transport links.
