

Greater Cambridge Local Plan

Additional Sites and Broad Locations

Response Form – Issues and Options 2020

Guidance

Cambridge City Council and South Cambridgeshire District Council are preparing a new joint Greater Cambridge Local Plan to provide a sustainable vision for the future of the area. This includes planning for new housing and economic development to meet our needs and protect and enhance our environment. An early step in the plan preparation process is to gather information on what land is available and suitable for development. We undertook a 'Call for Sites' in Spring 2019 and are now providing another opportunity for you to tell us about potential development sites and broad locations as part of the Issues and Options consultation.

This response form may be used to put forward potential sites and broad locations for housing or economic development across the Greater Cambridge Local Plan area which is made up of the administrative districts of Cambridge and South Cambridgeshire. An understanding of land availability for development across Greater Cambridge will ensure that the new Local Plan allocates enough land in appropriate locations to meet identified needs. A Strategic Housing Land Availability Assessment (SHELAA) will be prepared to help the Councils choose the right sites from a large number of potential alternatives having assessed their suitability, availability and achievability.

Please complete a separate form for each site being submitted for consideration. For sites to be considered all of the form must be completed.

Housing development includes market housing for sale, affordable housing (including entry level exception sites), housing for rent, student housing, housing for people with disabilities, housing for people receiving care, service family housing, sites for travellers and travelling showpeople, and sites for people wishing to commission or build their own homes. It does NOT however include sites intended for the provision of rural exception site housing.

Economic development includes development for B1 (Business), B2 (General Industrial) and B8 (Storage and Distribution) uses. It does NOT include retail, hotels, leisure or recreation development.

Only submit sites and broad locations that are capable of delivering 5 or more dwellings or economic development on sites of 0.25 hectares (or 500 square meters of floor space) and above.

Please do not resubmit sites that you have already told us about through the 2019 'Call for Sites'. If you do resubmit a site with an amended site boundary or

description, please let us know if this is a replacement submission or an additional submission.

If you need assistance completing the form contact the Planning Policy Team at Localplan@greatercambridgeplanning.org or call us on 01954 713183.

COMPLETED FORMS MUST BE RECEIVED BY 5PM ON 24 FEBRUARY 2020

Wherever possible the Call for Sites form should be completed online at: <https://cambridge.oc2.uk>.

If you do not have access to the internet, **you can submit forms by:**

We will treat your data in accordance with our [Privacy Notices](#). Information will be used by South Cambridgeshire District Council and Cambridge City Council solely in relation to the SHELAA and the Greater Cambridge Local Plan. Please note that all responses will be available for public inspection and cannot be treated as confidential.

Representations, including names, are published on our website. **By submitting this response form you are agreeing to these conditions.**

The Councils are not allowed to automatically notify you of future consultations unless you 'opt-in'.

Do you wish to be kept informed of future stages of the SHELAA and the Greater Cambridge Local Plan?

Please tick: Yes No

Disclaimer: The assessment of potential housing and employment sites through the Strategic Housing and Economic Land Availability Assessment process and the identification of sites with the potential for development does not indicate that planning permission will be granted for development, or that the sites(s) will be allocated for development in the Greater Cambridge Local Plan (GCLP). The SHELAA will be an important evidence source to inform future plan making but it will be for the GCLP to determine which sites are most suitable to meet identified needs.

Dear Sir/Madam,

LAND AT PARK LANE, HISTON: SITE PROMOTION

This Statement has been prepared by Cheffins on behalf of the landowner to promote land to the north of Park Road, Histon, in the Council's Issues and Options consultation. This submission is a response to question 2 of "The First Conversation" document and is a new site promotion to the Council. This is with a view to gaining an allocation for residential development in the emerging Greater Cambridge Local Plan.

The extent of the site and associated ownership is shown on the site location plan which accompanies this promotion. The total site area being promoted is two hectares, which is shown within the land edged red.

Benefits

The benefits of the proposed development are wide ranging and will promote the social, economic and environmental objectives of the National Planning Policy Framework. The site is located adjacent to existing services and facilities in Histon and will seek to promote the delivery of housing and continued economic growth in the region. It is entirely appropriate that development is directed towards these villages which are both large, with an established range of local facilities and services and which is well served by public transport, including bicycle and pedestrian links to Cambridge. The site is located in close proximity to a number of established and allocated employment sites and we consider that the proximity of the two weights strongly in favour of expansion of Histon and development at the subject site. These matters will go far towards promoting sustainable development and forms a sound basis for the emerging Local Plan.

The proposed development site is of a size where it could easily be delivered within five years, thereby making a positive contribution to the Council's housing five year housing land supply, which is ailing at the current time. Paragraph 68 of the NPPF states that small and medium sized sites can make an important contribution to meeting the housing requirement of an area and are often built out relatively quickly. To promote the development of a good mix of sites local planning authorities should, inter alia, identify, through the development plan and brownfield registers, land to accommodate at least 10% of their housing requirement on sites no larger than one hectare. Whilst the subject site exceeds this size, its allocation in whole or part would seek to meet this objective and ensure that the Council maintains a healthy supply of dwellings in the district, over a rolling five year period.

Site capacity

The site is being promoted for residential use, to include an appropriate provision of affordable housing and self build plots. This use would include land for access/roads, landscaping and public open space. The total site area comprises two hectares although this should be considered as the maximum extent of the site. If the Council considers it appropriate, it could allocate the site for residential development in part or whole.

Given its edge of village location, we consider a net density of twenty dwelling per hectare would be appropriate. Therefore, the identified site would have the capacity to accommodate up to forty dwellings (20x2). This would include the requisite percentage of affordable housing (currently 40%) and self building plots.

Environmental constraints

Part of the site is located in Flood Zones 2 and 3, which could limit the capacity of the site for built development. Such areas could be used for public open space or landscaping.

There are no identified drainage, contamination, biodiversity or heritage constraints at the site, which could affect development. The trees along the site boundary are subject to a Tree Preservation order, although access could easily be taken at a point which does not impact on the root protection area or canopy of these trees.

There is no known pipeline or utility infrastructure across the site.

Market and deliverability

The site is within the sole ownership of the promoter and it is considered that development at the site could be delivered within five years. The site is greenfield land and there are no constraints at the site which could prohibit delivery within this time period.

Given the character and nature of the site, we do not consider that there would be any issues associated with viability, deliverability or demand for residential development at the site.

Conclusion

We trust that the Council will assess the site in part and whole with a view to residential development. Please do not hesitate to contact us if you have any questions or would like to discuss this representation further.

Yours faithfully,

Ben Pridgeon MRTPI
Associate
